IDI HAUS

DESIGN • BUILD • INTERIORS • REMODELING

Spaces with presence. Homes with intention.

IDI HAUS approaches residential design as one resolved composition - architecture, interiors, lighting and execution working together.

Imagine. Design. Interiors.

OUR APPROACH

CONSIDERED PROPORTION

LAYERED LIGHTING

CUSTOM DETAIL

SEAMLESS PROJECT COORDINATION

Curated for a refined life.

A double-height living space shaped through proportion, textiles, architectural lighting and a restrained warm palette.

Kitchens that bring people together.

Designed for everyday living and memorable gatherings - balancing function, visual calm and architectural presence.

A feature wall with hierarchy.

A composed feature wall uses texture, reflection and architectural lighting to create depth while maintaining visual restraint.

Small rooms. Full design impact.

Expressive spaces where lighting, wall treatment and custom detailing establish a distinct identity.

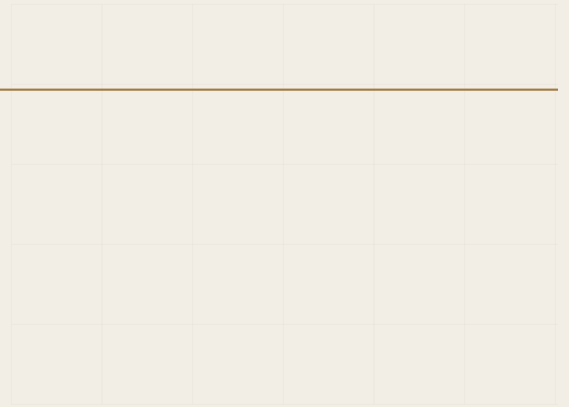

A quieter expression of luxury.

A calm, hotel-like atmosphere created through warm surfaces, a freestanding tub and carefully layered illumination.

Crafted for a complete home.

The character of a project is resolved at the detail level -
proportion, transitions, lighting and tactile finishes.

Proportion

Materiality

Lighting

Craft

One vision. From concept to completion.

01 **IMAGINE**

Define the way the home should feel and function.

02 **DESIGN**

Resolve space, proportion, lighting and material direction.

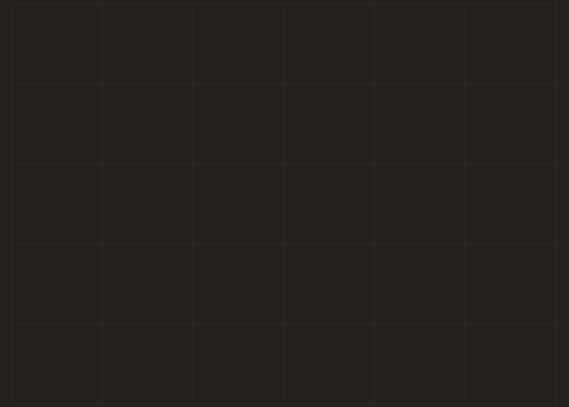

03 **COORDINATE**

Align procurement, trades and project execution.

04 **DELIVER**

Complete the home as one coherent composition.

IDI HAUS

Extraordinary spaces
for a better life.
